## **THE SON OF MAN AND THE KALKIAVATAR PARAMA SADGURU SHREE GAJANAN MAHARAJ AND HIS MISSION IN CONTEXT WITH DIFFERENT MESSENGERS OF GOD** (by Werner Metzger)

### **What is the meaning of > Son of Man < and where does it come from ?**

The term > Son of Man < is mentioned in the Christian Bible by the different apostles Mathew, Mark, Luke, John and the revelation of St. John the Divine in the New Testament after Christ, and about 160 years before Christ by the prophet Daniel in the Old Testament.

**“I saw in the night visions, and behold, one like the Son of Man came with the clouds of heaven, and came to the Ancient of days, and they brought him near before him.”**

(Daniel chapter 7/13; Holy Bible, Old and New Testaments, King James Version, Iowa Falls Iowa 50126)

The term >Son of Man< means an entity, a person, who looks like a man without being a human person. This is to be understood that a divine entity has taken a human body, i.e. it has taken birth by certain parents in order to fulfill a mission or to deliver a divine message amongst people. This is only possible when this entity takes birth by human parents to be able to be understood by the people to whom this message has to be delivered. In the course of human history, over and over again, messengers of God have taken birth to show the people the righteous way of liberation, to get out of the bonds of karmic chains and entanglements. It should be understood that there is no necessity for a divine incarnation of the Almighty when people are on the right divine path. The divine hierarchy sees the necessity for the incarnation of one or more divine entities if the situation is such that the true religion is spoiled and the divine laws of creation are destroyed on a vast scale. This happens to show people the way out of their misery into which they have brought themselves by bad habits and disrespect towards the Divine. This is also proof for the love of the Almighty for His creation. Many times messengers of God were not understood and were persecuted by those persons and institutions who had the power and some were also killed. There are many examples of this in the Old and New Testament. These facts last until today because people don't want to give up desired habits if these were told to them and criticized. This happens especially when striving for money and power and desired habits are getting lost. Instead of looking in a mirror and knocking on ones own chest and saying: “ Mea culpa, mea culpa, mea maxima culpa“, (My guilt, my guilt, my big guilt) they attack and damn the messengers of the Almighty in order not to lose their egotistic and material properties. The Asiatic and European spiritual and religious history is full of such examples. In this context, what has happened in the last 2000 years in the nearer Orient and in the Occident is beyond description. Simply good that the law of balance, the law of cause and effect, “You reap as you sow”, acts under all circumstances. Otherwise the injustices in the world were not bearable by those who love justice and righteousness. Thanks to God everybody is bound to that law.

Today we also live under temporal circumstances which made the appearance necessary for a highest messenger of the Almighty. Whenever the eternal divine laws of creation – the Eternal Religion (Sanskrit: Satya Dharma) – is trodden underfoot and people have lost sight of the purpose of their lives and are only striving for money, luxury and power, then the time has become ripe for the appearance of a highest messenger of God. The condition of the Eternal Religion, i.e. Satya Dharma, is very bad in the east and the west as well today. In the east it are the Vedas and in the west it is the spiritual belief. In these times Parama Sadguru Shree Gajanan Maharaj has taken birth, that means he has taken a human body and overtaken the task to revive the eternal laws of religion. This He has done in the form of the FIVEFOLD PATH of the Vedas and the TEN COMMANDMENTS of Parama Sadguru.

Beginning with some of the revelations which Parama Sadguru (= highest among perfect masters) had in the early forties of the last century we will explain more his mission in the context of earlier messengers of the Almighty. As these revelations have taken place around Advent and Christmas, these times are of a high importance and are very precious for continuity of the past and the present regarding the eastern and western history of religion.

#### **Revelation on December 25, 1941**

Gautama Buddha had the revelation that he is the **Light** of the entire universe. Similarly, the >Son of Man< also had the revelation on December 25, 1941, that the one who was born as Ram, Krishna and Buddha has been incarnated in the form of the >Son of Man< and this truth is being brought before the world.

#### **Revelation on December 21, 1944**

On Thursday, December 21, 1944, the >Son of Man< had the revelation that He had incarnated to complete the work which was left incomplete by Gautama Buddha.

#### **Revelation on January 4, 1945**

On 4<sup>th</sup> of January, 1945, it was revealed to the >Son of Man< that He has been made the One to rejuvenate religion and fireworship.

What does this mean?

For better understanding, one should know that Ram (also Rama), Krishna and Buddha are in the line of the ten highest Avatars the seventh, eighth and ninth incarnation of the Almighty. Like today also, these Avatars (an Avatar is a divine entity that has incarnated by free will with the intention to deliver a message to humanity or to fulfill a message) have come to stop the deterioration of religion and to propagate the true one. According to the circumstances, they were more or less successful. At the times of Buddha, religion and sacrificing were connected with slaughtering of countless animals and burning in fire or eating was in practice. Therefore the atmosphere was overloaded with violence. Ascetism and self-mortification on the one hand and life given to worldly pleasures, irrespective of misery and grief caused to others on the other hand was the deplorable picture that society presented. Priestly hypocrisy, casteism, sorcery, lack of cogent thinking, fatalism, suppression, lapses of moral code, refuge behind high sounding doctrines as a cover for ignorance and facility, were the order of the day. Buddha was strictly against that slaughtering and sacrificing which was in practice at that time and laid stress on fire-offerings which were held without any violence. As oblations for the fire and fire worship are essential for religious practice, they were in use even by primitive races, but mostly connected with blood and flesh as offerings, for the fire. Fireworship without violence was almost extinguished all over the world until today. But slaughtering is in practice even today, worldwide. This has to be stopped because it is connected with violence which fills the atmosphere with bad vibrations and is also disliked by God!!

Especially with the Jews of the Old Testament, sacrificing of animals and their burning in fire or eating of the same was a widely bad practice. There, and also in India, priestly hypocrisy and contempt of the Holy were widely in practice. Over and over again, prophets and seers appeared amongst the Jews to condemn the sacrificing of animals. Only until Jesus Christ came did these bad habits of sacrificing cease. Instead of fire-worship in the form of fire-offerings He put the non violent love-feast (Agape) which was transformed later on into the Lord's Supper. Instead of eating the sacrificed animal, Jesus Christ in thoughts is eaten as the >sacrificial lamb<. This cannot be a right thing!

In His revelations on 12<sup>th</sup> of December 1944 and on 4<sup>th</sup> of January 1945 it was revealed unto the >Son of Man<, Parama Sadguru Shree Gajanan Maharaj, that He is the one to revive religion and the worship of fire. This was done by Him with the message of the FIVEFOLD PATH of Vedas and the TEN COMMANDMENTS of Parama Sadguru Shree Gajanan Maharaj. Is there any historical reference to these revelations in India and also in the west in connection with religion?

According to a prophecy, 2500 years after Buddha a highest Avatar was to be expected. He was expected as the >Kalki Avatar<, the tenth incarnation of the Almighty. The >Son of Man<, Parama Sadguru Shree Gajanan Maharaj was born on 17<sup>th</sup> of May 1918 in Kharapur/Begal. **As the first aspect of the FIVEFOLD PATH starts with the purification of the atmosphere in general with Yadnya and especially with Agnihotra in order to purify the atmosphere from the worldwide pollution, the >Son of Man< Parama Sadguru has become known as the >Kalki-Avatar<.** (The word > Kalka< means pollution.)

**Is there in the western hemisphere also any reference which points in the direction of the revival of the true religion?**

Prophet Daniel in the Old Testament says:

“...Yea, he magnified himself even to the prince of the host, and by him the daily **sacrifice** was taken away, and the place of his sanctuary was cast down. By its presumption it forbade the daily offering. **It destroyed the real divine service** and with everything that it undertook it was successful. Then I heard two angels speaking to each other. The one asked: >How long shall be the vision concerning the daily sacrifice and the transgression of desolation to both the sanctuary and the host to be trodden underfoot?< ...And I heard a man's voice ... and said: >Gabriel, make this man to understand the vision.< So he came near where I stood and when he came I was afraid and fell upon my face. But he said unto me: >Understand, O son of man for at the time of the end shall be the vision.< ...And he said: > Behold, I will make thee known what shall be in the last end of the revelation. For at the time appointed the end shall be.<”

(HOLY BIBLE, King James Version, World Bible Publishers, Iowa Falls, Iowa 50126)

This prophetic vision of Daniel makes it very clear that the evening and morning sacrifices first of all were stopped and secondly that they are the real sanctuary. **The evening and morning sacrifices, the non violent AGNIHOTRA-Fire-Sacrifice in the evening and in the morning, is the real sanctuary and the essential part of practising religion!** It is important that these fire-sacrifices in the morning and in the evening are practiced **without any violence**, that means, offerings for the fire consist only substances which contain neither flesh nor blood and are done in a specific way.

### **The wrong and the right Divine Service**

“Hear the word of the Lord, ye rulers of Sodom; give ear unto the law of our God, ye people of Gomorrah. To what purpose is the multitude of your sacrifices unto me? Said the Lord: I am full of the burnt beasts, and I delight not in the blood of bullocks, or of lambs, or of the goats.... When ye make many prayers, I will not hear: your hands are full of blood. Wash you, make you clean; put away the evil of your doings from before mine eyes; cease to do evil; learn to do well; seek judgement!”

(Isajah 1, 10-17; HOLY BIBLE, King James Version, World Bible Publishers, Iowa Falls, Iowa 50126)

## **FIRE AND FIRE-SACRIFICES IN THE HOLY KORAN**

**The Holy Koran refers to the holiness of fire and to whom that resides in the fire and points out the importance of the fire for him who is practising it:**

“Remember, how Moses once spoke to his people: > I see one fire, either I tell you about it or I bring unto you a burning fire so that you can warm up yourselves.< When he approached the fire a voice was calling unto him: >**Praised is He who is in the fire and he who is round the same.<<”**

(Holy Koran, 27 / 8-9)

Prophet Mohammed did not understand for himself to be the only one prophet in the past, present and future, which can be seen with one chapter of Holy Koran:

**“Allah ordered unto us not to believe any messenger, except he comes unto us with a sacrifice which is consumed by fire.”**

(Holy Koran, 3 / 184)

For Islam, the time has also come to practise the true religion, i.e. **SATYA DHARMA**, the eternal principles of religion, in the form of the FIVEFOLD PATH of the Vedas, as revived by Parma Sadguru Shree Gajanan Maharaj.

## **PARMA SADGURU SHREE GAJANAN MAHARAJ – THE LIGHT OF THE UNIVERSE**

Parama Sadguru is the messenger of the Almighty who has revived the holy fire sacrifice in which no violence is involved. It is in the form of Yadnya in general and especially with Agnihotra in the morning and in the evening. In the form of the FIVEFOLD PATH of the Vedas and the TEN COMMANDMENTS He has revived the eternal laws of religion as the ordained order of Gods creation for the welfare of the whole mankind and the planet as well. At the change of the time epoch, it was necessary for a highest Avatar to come, who himself is a mighty entity in the universe. **The LIGHT OF THE UNIVERSE has come on earth in the human form of Parama Sadguru Shree Gajanan Maharaj to deliver the spiritual light for all humans irrespective of creed, complexion or culture to be able to live a happier and more blessed life on earth, as it is possible for most of the people under the prevailing circumstances.** As Christmas tide, the time of winter solstice, is the time of the renewing of the life it is also an important time because of the revelations that Parama Sadguru had at this period. **Through HIS mission God has revealed the true religion and set into motion again the >Wheel of DHARMA<.**

On December 6<sup>th</sup> 1987, the Son of Man and the Kalki Avatar left his physical body as per His own wish and by free will. His last message and His last wish was this:

**“Follow the path shown with complete devotion.  
Dutifully carry on the divine willed assignment  
that has come your way.  
Concentrate all your energies mainly on the thought  
as to how the Kingdom of Heaven can be established everywhere.  
See me every day in the sacred Fire within which I dwell.  
Have complete and unflinching faith in me.”**

+ + +

### **WHAT IS RELGION AND WHAT IS IT GOOD FOR ?**

In times when the multitude of people have no more knowledge of religion and if at all they connect it with “religious ritualism and belief”, no wonder that they also have lost the essence and purpose of their lives. Of course they have learned at school a lot about religion and the different prophets and religious people, about the “Ten Commantments”, the life of Jesus Christ, Buddha and Mohammed, and many times they have heard stories from the Old and New Testament at any opportunity, i.e. birth, marriage and death. But all of this is only sentimental entertainment. Yet the demands of the religion of the prophet or divine messenger regarding behaviour and love to one’s neighbour few people care about. On the contrary: The religious commandments are interpreted to fit the psychological moment. Therefore the situation of the today`s societies is very bad and the laws are equal to that. The eleventh commandment of humans, with their immoral behavior and illegal doings, is like this: “Don’t get caught” or “don’t worry”.

When people have lost sight of the sense of religion and of their lives, automatically their minds get disturbed because of the very strong charm of sensual desires and their lust satisfaction which finally end in a sort of addiction. With that they have put themselves on a path which clouds reasonable and social thinking and behaviour. No wonder that this kind of thinking and acting is also reflected in their laws and jurisdiction. What, for instance, was prohibited fifty years ago, is now in and not prohibited, because people have no measurements for behaviour that is benevolent and according to their destiny. This can be proved by looking at the past and present of different cultures. After their going up their falling down followed when the social life was deterioriated through prosperity and corruption by the responsible governmental and religious authorities. It seems that this over and over again is repeated. But there is no need for this, if the responsible authorities and institutions would act thoughtfully and responsible, according to the principles of the order of creation and the true and real religion.

#### **What is true and ever valid Religion ?**

True and ever valid religion is oriented on aim and purpose of human life. Man, regardless of colour, culture or religion is a creation of God, in the context with the whole creation. Different religious cults and practices are based on the specific author of the same and fitted to the spiritual development of the people in the different cultures and circumstances of the times. What is good for >A< does not fit for >B<. Therefore, these differences. The human race underlies a spiritual evolution and thus not all humans have reached the same height of development. **Yet the aim of this development for all humans is the same: namely knowledge of the Self which is identical with knowledge of God!**

Each human being (each!) has got a soul, which is identical with the universal soul, namely God. This soul should not be mixed up with psyche or mind. The latter ones express the nature and the character of a person. It is the duty of man to recognize the identity of the individual soul and the universal divine soul which summits in the recognition of God. All great messengers of the Almighty, yogis and mystics have experienced and proved this whether they worked in public or in silence. The apostle Paul says: "You all are sons of God in Jesus Christ by belief". But things are not that easy. To become or to be a >Son of God<, as this term is used by the churches for Jesus Christ is not as easy as it seems. For this, many incarnations and passed tests in the service of God are necessary. Most of the people didn't achieve that height of development, i.e. they didn't reach knowledge of God and therefore knowledge of the self. Yet every human being has the possibility to achieve that level of development because all people have a soul. To achieve the aim of knowledge of the self and knowledge of God religion is given. Religion is that effort for the individual and spiritual development to be able to achieve the aim of human development. This happens by improving and cultivating the mind in the sense of: "**Love thy neighbour as thy self.**" Therefore **every human being (every!) has the duty** to strive for that possibility of development which is given by God, and to do everything to achieve that aim in the shortest way. The individual soul wants to become one with the divine universal soul. Why this cannot happen is because of the mind's passions such as anger, envy, greed, attachment, pride, jealousy, lewdness, lust, ect., etc., only to mention some of them. As long as the mind is not purified from these passions the merging of the individual and the universal soul cannot take place. All messengers of God, prophets and monitors spoke about these bad habits of the mind and overcoming them. The one only who has a pure mind that is purified from its passions and egotism can know God. But remember the knowledge of the self and the knowledge of God is not an intellectual or rational one, but an act which can be experienced by full consciousness.

### **For knowledge of the Self there is a long and a short way**

**The long way** is the way of sensual greeds, passions, egotism and striving after money and power. It can be understood very easily that the long way goes together with harm, misery, failure, illness, death and re-incarnation, because nobody can escape from the law of cause and effect, i.e. the Law of Karma: "**You reap as you sow.**" On the long way, there is little progress and at the same time very often setbacks. Many hundreds or thousands of births are necessary to reach finally the aim i.e. knowledge of the Self or God to find finally peace and tranquility for mind and soul.

**The short way** is the way with the help of SATYA DHARMA, i.e. the principles of religion as given by the FIVEFOLD PATH and the TEN COMMANDMENTS of Parma Sadguru. To walk that way with great determination and perseverance means to get on a plain and not to worry about the perils of the road with all difficulties, danger, accidents, construction work and diversions. After all, it is the safest possibility to reach the destination.

### **Religion does not know any automatic forgiving sins by only Religious beliefs**

Especially the Christian creeds and sects believe that by only confessing or visiting Eucharist or believing in Jesu Christ and the sacrifice of His life their sins can be forgiven. This is a fatal and false doctrine. If this were right, the law of cause and effect. "You reap as you sow" would be set out of force and the Christian world would have been without sin and sinners for centuries, that means we would have to deal only with saints. Yet the facts prove a quite different world in which backbiting, cheating, murder, killing, lying and all the other above mentioned passions of the mind are rampant everywhere. No, things are quite different!

The false believe of forgiving sins as taught by the churches is also in contradiction to Jesus Christ's >Sermon on the Mount<: "Blessed are who are the pure in heart for they shall see God." A pure mind means to be free of the mind's passions, living according to the Ten Commandments without exception, and to be free of personal egotism! From this, the representatives of the religious confessions are far away! A glance at the history of the churches proves that the representatives of the same were the worst sinners. **For reaching the aim and purpose of human evolution, namely: "Love thy neighbour as thy self" or "Be ye perfect as my father in heaven is perfect" each person has to strive serious what nobody can do for you.**

### **THE FIVEFOLD PATH IS ETERNAL LAW – ETERNAL TRUE RELIGION (SATYA DHARMA)**

**This is the FIVEFOLD PATH:**

- 1. AGNIHOTRA: For purification of the atmosphere and the mind.**
- 2. DAAN: Sharing of assets in a spirit of humility.**
- 3. TAPA: Self discipline, purification of the mind from its passions and sternness with oneself.**
- 4. KARMA: Right action without attachment to the fruits thereof.**
- 5. SWADHYAYA: Study of the Self for Self-knowledge: Who am I?**

This is the shown way that leads to purification of the mind and to cognition of God. Each person has the potential not only to follow this way but also to realize it. Yet one's own effort for this is the precondition.

\* \* \*

To the above writing KRIYA-YOGA-SCHOOL offers the following books and scriptures in English:

**"SHREE – Life and Work"** (Biography of Parama Sadguru Shree Gajanan Maharaj)  
(by Werner Metzger)

**"Education and Characterbuilding of Man from the Cosmic Point of View"**

(The system of education in context with the Fivefold Path and the Ten Commandments)  
(by Werner Metzger)

Many more English books are available in India.
